	Play/Pause	Start to play a CD title, continue playing the title, or Pause the current play status.
	Next track	Skip to the beginning position of the next track.
	Calculator	Launch the Windows Calculator application.

Important points for the user manual of RF-USB receiver

The USB receiver has the following additional LED's

Data receiver confirmation indicator (on the top of the receiver).

You can directly use this wireless combo when plugging in this USB receiver.

Notice

1. When the mouse has not been used for a long time, please take the battery out of the battery compartment. Otherwise, the battery may leak and cause the mouse to be damaged.
2. Please change the two batteries when you find the usable range getting shorter, or your mouse will malfunction.

Installing the Batteries

1. Press the battery cover at the position as shown and slide back to open the battery cover.
2. Put 2 AA batteries into the battery compartment; please be careful of battery polarity.
3. Replace the battery cover and then slide it back.

Troubleshooting

When your wireless mouse does not work after installation

- Make sure you have connected the receiver correctly. The receiver cable goes into the USB Port. For optimal performance, place the receiver at least 8 inches or 20 centimeters away from other electrical devices, such as the computer, the computer monitor, or external storage drives.
- Make sure that the batteries you use are new and fresh (not outdated). If you are not getting a response from the mouse or keyboard, please replace the batteries.
